Benchmarking Performance

Understanding your brand's social media performance starts with knowing what's typical in your industry. This report explores comprehensive benchmarks across key metrics and social channels, including TikTok, Instagram and YouTube. These insights help set clear goals, strengthen content strategy and support faster audience growth.

About the Data

For the Issue 2 2025 Social Media Benchmark Reports, Dash Social pulled a sample of global companies across TikTok (n=970), Instagram (n=2,967), and YouTube (n=630), analyzing their activity between January 1, 2025 – June 30, 2025, to determine average performance against a predetermined set of KPIs. These benchmarks include organic, boosted, and promoted content but exclude paid ads. They apply to handles with at least 1K followers, covering both customers and non-customers. The results have been published in separate reports broken down into the following industries: beauty, CPG, children and baby, fashion, food and beverage, health and wellness, home, luxury, media and entertainment, publishing, retail, and travel and hospitality.

Defining the Beauty Industry

The beauty industry encompasses cosmetics, skincare, haircare, fragrance and services targeting aesthetic-driven consumers.

KPIs

Average Monthly Growth Rate

The average number of followers added on a monthly basis.

Why It Matters: It helps brands understand the rate at which the industry is growing and how they measure up.

Average Reach Per Post

The average number of unique accounts that see your post.

Why It Matters: It helps brands understand the number of unique people its message reaches. This is important because it provides insight into brand awareness.

Average Entertainment Score (TikTok and Instagram Reels)

The Entertainment Score is a proprietary Dash Social metric and is scored against a global database of industry benchmarks.

Why It Matters: It helps brands understand how entertained its audience is by a TikTok or Reel.

Average Engagement Rate

The average engagement each post receives. Each platform calculates engagement rate differently.

Why It Matters: It helps brands understand the rate at which the industry is growing and how they measure up.

Average Effectiveness Rate (Instagram and Facebook)

A Dash Social metric that includes video views as a way to understand video performance.

Why It Matters: It helps brands understand how posts were received by those who saw it, rather than the brand's total followers.

Average Number of Weekly Posts

The average number of posts brands share per week.

Why It Matters: It helps determine the right cadence for posting.

Average Video Views / Views

The average number of views each video receives, this includes rewatches.

Why It Matters: Users watching video more often have a higher likelihood of remembering brand messages or products.

Average Shares Per Post

The average number of times each piece of content is shared.

Why It Matters: Shares indicate that content resonates with users and is deemed 'shareable'.

Average Comments Per Post

The average number of comments that each post receives.

Why It Matters: Comments signify community and suggest that users connect with the video.

Cross-Channel Trends

TikTok Leads in Engagement.

Using the same engagement rate calculation, TikTok (5.0%) leads Instagram (3.6%) and YouTube (3.4%) in engagement.

Engagement Rate is calculated using (Likes+Comments+Shares)/Reach for TikTok and Instagram, and Video Views for YouTube.

Instagram Drives the Greatest Reach.

On average, Instagram drives +42% more reach than TikTok.

YouTube Has a Strong Subscriber Base but Lower Engagement.

YouTube has a large audience (1.2M average) but lower engagement and views than other channels, especially for Shorts.

TikTok Trends

Viewership Is Trending Up.

Despite uncertainty around TikTok's future in the United States, viewership continues to grow. Over the past six months, reach grew +25%, shares +31%, and views +26%, signaling stronger audience interaction.

Follower Growth Slows, Indicating Shift in Behavior.

Brands grew at an average rate of +3.4% per month, the slowest rate since tracking began. The slowdown could reflect changing user behavior and a move away from following accounts.

Most Users Do Not Finish Videos.

On average, only 10% of users watch a full TikTok. Viewers typically consume about 30% of a video, suggesting shorter, higher-impact content may better capture attention.

[@housebeautiful](#)

Instagram Trends

Carousels Lead in Both Reach and Engagement.

Carousels deliver the strongest results across formats (2.9%, 363.3K per post), outperforming single images (2.3%, 337.3K) and Reels (2.7%, 289.5K).

Shares Have Doubled.

The average number of shares per post has increased by +86% in six months, showing that shareable content fuels interaction and is one of the main ways people engage on Instagram.

Quality Over Quantity.

Reach and views are rising while engagement remains steady, demonstrating that posting more does not make audiences more engaged. Brands like Elmo and Sour Patch Kids post two to three times a week yet achieve stronger results with higher-quality, engaging content.

[@sourpatchkids](#)

YouTube Trends

On-Demand Video Views Rise, Shorts Decline.

Average views per post are up +121% for On-Demand video and down -20% for Shorts compared to six months ago.

Users Are Watching Longer.

Average watch time per video has increased from 64% to 86%, with retention at 99% for Shorts and 65% for On-Demand.

On-Demand Drives Reach, Shorts Drive Engagement.

On-Demand videos generate nearly six times more views than Shorts. While Shorts see fewer views but significantly more likes, comments, and shares.

Video Views and Reach Rise as Engagement Holds

 Over the past six months, video views are up +51%, reach is up +48%, and shares are up +38%. Engagement rate holds at 3.9%.

 Reach is up +30% versus six months ago. Shares and saves remain low relative to views, an opportunity to optimize for content that drives interaction.

 On-Demand videos average 158.1K views per post versus 24.7K for Shorts. Brands post three times more Shorts weekly than On-Demand videos.

 Dash Social Insight

Reach and views continue to grow. To convert this into stronger engagement, focus on creating content that inspires saves, shares, and comments.

Average Beauty Engagement Rate and Video Views Per Post

Large Brands (230K+ Followers)	1.4M	11	1.6%	306.0K	612	219.4K	13.8K	4.0	4.5%

*Customer data only
Engagement Rate = (Likes + Comments + Shares) / Video Views
Engagements = (Likes + Comments + Shares)

Dash Social Insight

User behavior is evolving: engagement is on the rise, growth is slower, and completion rates are low. To keep making an impact, brands need to adapt with stronger hooks, punchier content, and focus on quality over volume.

Large Brands (105K+ Followers)	788.9K	61	0.04%	1.0K	1.3%	22	3

*Calculation: (Outbound Clicks + Saves + Pin Clicks) / Impressions

Dash Social Insight

Smaller brands grow faster, while larger brands gain more video views but have lower engagement.

Average LinkedIn Performance Across All Industries

	Follower Count	Weekly Posts	Monthly Growth Rate	Impressions	Likes	Clicks	Engagement Rate*
Overall	134.8K	2	1.5%	8.0K	101	694	7.9%
Growing Brands (0 – 12K Followers)	5.6K	1	2.3%	580	16	37	8.3%
Established Brands (12K – 50K Followers)	28.6K	1	1.4%	1.5K	35	127	11.4%
Large Brands (50K+ Followers)	358.1K	3	1.0%	11.9K	142	1.0K	6.6%

*Calculation: (Clicks + Reactions + Comments + Reposts) / Impressions

Dash Social Insight

Established brands on LinkedIn have the highest engagement rate despite modest impressions and posting only once weekly. Large brands dominate in reach but have a lower engagement rate than Growing brands.

X Average X Performance Across All Industries

	Follower Count	Weekly Posts	Monthly Growth Rate	Impressions	Likes	Total Engagements	Engagement Rate*
Overall	1.0M	91	-0.1%	13.7K	32	243	2.2%
Growing Brands (0 – 12.5K Followers)	5.9K	7	0.1%	3.8K	9	49	5.6%
Established Brands (12.5K – 200K Followers)	70.7K	47	-0.1%	3.6K	11	48	3.4%
Large Brands (200K+ Followers)	2.3M	149	-0.1%	16.4K	47	295	1.9%

*Calculation: (Reposts + Replies + Likes + Clicks) / Impressions

Dash Social Insight

Despite posting the most, large brands on X have the lowest engagement rate. Growing brands struggle to gain momentum with negative follower growth.

@ Average Threads Performance Across All Industries

	Followers	Weekly Posts	Monthly Growth Rate	Weekly Profile Views	Engagments Per Post	Likes Per Post	Replies Per Post
Overall	493.9K	17	0.7%	361.7K	85	78	4
Growing Brands (0 – 100K Followers)	45.9K	18	0.6%	29.1K	21	19	1
Established Brands (100K – 300K Followers)	190.4K	15	0.9%	238.5K	80	74	3
Large Brands (300K+ Followers)	1.3M	17	0.7%	850.6K	163	148	7

*Calculation: (Reposts + Replies + Likes + Clicks) / Impressions

Dash Social Insight

Large brands on Threads lead in all performance metrics. Despite posting slightly more, growing brands trail in engagements per post. Notably, all brands experience a similar growth trajectory.
